

Our Approach

At Center 4 Correctional Nursing we are dedicated to empowering correctional nurses with the competencies they need to deliver high-quality care in carceral environments. Our approach focuses on competency-based educational strategies that guide and support individual nurses toward practical, evidence-informed and evidence-based education topics that facilitate the introduction and entry into correctional health care and professional growth for retention of a competent correctional nursing workforce. A special focus is placed upon the development of a nurse's professional identity in correctional nursing.
