How to Achieve Success as a Correctional Nurse Manager: A Five-Part Series

The NCCHC Nurse Advisory Council has developed an engaging five-part series to empower and elevate correctional nurse managers. Led by seasoned correctional nursing experts, this dynamic series is tailored for novice nurse managers and ambitious staff nurses aspiring to step into leadership roles. Each session dives into essential concepts and skills, providing invaluable tools to thrive as a successful nurse manager. Don't miss this opportunity to gain expert insights, build confidence, and take your career to the next level! 300 minutes / 5 hours CE. Recorded February 2025. \$199.00 More Information/Register

Meeting The Challenge of Correctional Nursing: *Review for the CCHP-RN*

While traditional nursing experiences may help in your transition to corrections, not one of them can fully prepare you for the role of a correctional nurse. It is a specialty that is often learned through on-the-job training, until now. Whether you are new to correctional health care or a seasoned professional, this course will provide an overview of nursing responsibilities from intake to release and the days, or even hours, in between. The material covered is also intended to assist candidates seeking the CCHP-RN certification to prepare for the exam. 3.5 hours CE. Recorded October 2020. \$149. [More Information/Register](#)

Shining the Light on Trauma - *Informed Correctional Nursing Care*

Universally, the prevalence of trauma histories, post-traumatic stress response, and post-traumatic stress disorder are considerably higher among incarcerated persons when compared to the general population. Correctional nurses can foster the integration of trauma-informed care by embracing trauma awareness in their professional roles; emphasizing safety and trustworthiness; providing opportunities for choice, control, and collaboration; and focusing on patients' strengths and skill building. 60 minutes/1 hour CE. Recorded March 2022. \$60. [More Information/Register](#).
